Re: Important Safety Recall – MARCH 2017 Walther CCP Pistols

Walther Arms has identified a potential condition in Walther CCP pistols that could potentially cause it to discharge if dropped whether the manual safety is engaged (on) or disengaged (off). The safety of our customers is our paramount concern so we have voluntarily initiated this recall because of the possibility of a drop-fire occurring.

If you own a CCP, please do not load or fire your Walther CCP pistol and contact us immediately to arrange to have your pistol upgraded free of charge, using the following steps:

Step 1 – Contact us at 1-866-503-3389 (M-F / 8:00AM to 5:PM CST), email (ccprecall@waltherarms.com) or online (www.waltherarms.com/ccp-recall) and provide the serial number of your pistol.

Step 2 – After contacting us, we will send you shipping instructions so that you can return your unloaded pistol to us, free of charge via FedEx. The medium FedEx carton will fit factory CCP case.

Step 3 – We will upgrade and return your pistol to you free of charge. We will make every effort to complete the upgrade and return your pistol to you as soon as possible.

We apologize for any inconvenience that this may cause, and to thank you for your patience and cooperation.

We greatly appreciate your loyalty to Walther products.

Upgraded pistols will have a dot milled into the back side of the magazine opening.
