March 28, 2008

Dear Valued Distributor:

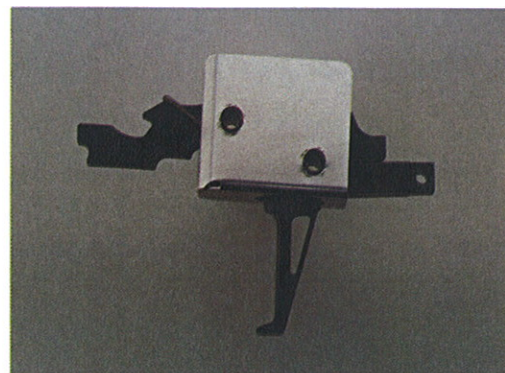

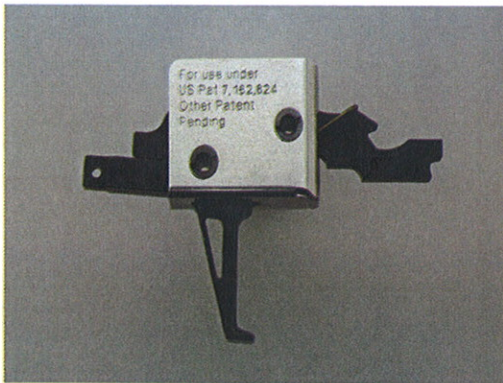

Chip McCormick Corporation has its highest priority on product quality and customer satisfaction. Chip McCormick Corporation (CMC) is voluntarily recalling all CMC AR 15 Match Trigger Modules sold from May 2007 through December 2007.

The potential defect can cause abnormal wear to the surface of the disconnecter with usage. When this happens pulling the trigger may cause the rifle to fire more than one shot with each pull of the trigger. If this happens, **IMMEDIATELY** take your finger off the trigger. Keep the rifle pointed in a safe direction and unload it.

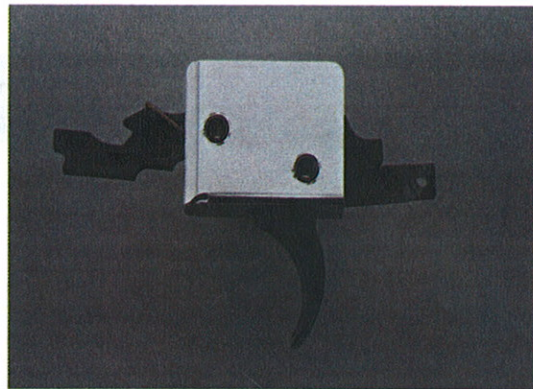

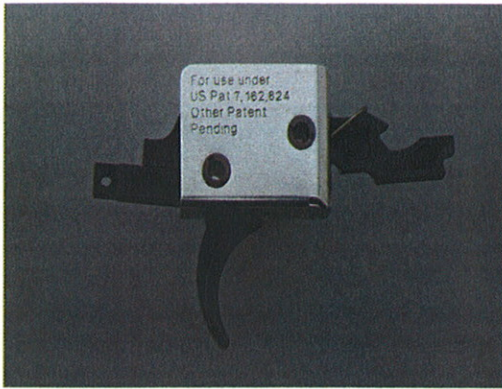

WARNING: FAILURE CAN CAUSE WHAT'S OFTEN KNOWN AS DOUBLING

This voluntary recall program clearly takes action in a fair and responsible manner, supporting our No. 1 objective, consumer safety and satisfaction.

If you have purchased a Chip McCormick Corporation (CMC) **AR15 Match Trigger Module** during the period of **May 2007 through December 2007** please immediately call the toll free number below or visit our website to initiate a free return and product replacement.

91503 AR15 Single Stage Flat small pin Trigger
91507 AR15 Single Stage Flat large pin Trigger

91501 AR15 Single Stage Curved small pin Trigger
91505 AR15 Single Stage Curved large pin Trigger

CMC will inspect your CMC AR15 Match Trigger Module for free and make sure it meets CMC original specifications. If the module requires new parts we will install them, function check the trigger module and ship it back to you at no charge.

Call 888-879-4612 or visit the special recall website at <http://recallqa.com/CMCAR15> for complete instructions on how to obtain free shipping in order to return your CMC AR15 Match Trigger Module for a FREE inspection and immediate repair.

Sincerely,

Chip McCormick Corporation
